Description

An elegant silver and enamel compact of circular form, the lid beautifully decorated with a soft pink guilloché enamel ground overlaid with hand-painted floral motifs of roses and forget-me-nots in delicate shades of blue, green and mauve. The shimmering engine-turned enamel creates a subtle rippling effect beneath the decoration, adding depth and refinement.

The compact opens on a hinge to reveal a gilt interior, fitted with a pierced grille and retaining its warm gold wash, providing a pleasing contrast to the cool silver exterior. The piece is both decorative and practical, exemplifying the fine craftsmanship and feminine elegance associated with early 20th-century silver and enamel vanity items.

A charming and collectible compact, ideal for display or as a thoughtful gift for a lover of antique silver and enamel.
