

Modern Hand Made Solid Silver Honey Dipper / Drizzler / Spoon

£937.50

Description

A gorgeous Heavy Weight Silver Honey Dipper with a curved handle. This Modern Honey Drizzler is gilded in the center of the drizzler to ensure there is no hard to reach tarnish. The handle has a small indent to allow it to balance on the edge of the honey pot to allow the honey to drain back into its Jar.
Adam Veevers.

Growing up in the Peak District, Adam Veevers has been strong influenced by the rich, rugged countryside around him. His passion for design and the materials in which he works is translated into three dimensions through his wonderful silver pieces. He completes a BA in Silversmithing in 1991, and has since designed both his own ranges, as well as for some of the biggest design brands in the world. The exceptional quality is easily understood through the tactile, heavy weight nature of each of the items.

Please allow 4 -5 weeks for delivery, as Adam's work is made to order.
