Description

This solid silver rectangular pill box is designed with two internal compartments, allowing tablets or small keepsakes to be stored separately within a single hinged container. The engraved lids introduce decorative detail across the structured rectangular form.

The balanced proportions and defined edges create a compact object that combines practical organisation with ornamental surface patterning.

Handcrafted in sterling silver using traditional silversmithing techniques, the pill box is carefully formed with a rectangular profile and divided internally into two sections. The engraved detailing is applied with precision before the surface is finished to a refined polish, and a fitted hinge ensures smooth operation.
