

Solid Silver 'Churn' Salt Mill / Salt Grinder

£240

REF: S026

Height: 9.5 cm (3.7")

Weight: 167 g

Description

A Sterling Silver Salt Mill designed to mirror the shape of an antique silver butter churn. This design has been popular since the Victorian era, and skilled silversmiths have worked hard to create a pepper mill that is both beautiful and practical. The interior of the Salt Grinder is fitted with a durable nylon mechanism, which is resistant to salt corrosion.

This item can be purchased with a matching pepper mill. The wood & silver Churn shape is also often purchased to compliment the salt mill.

Approx Size: 95mm (3.75 inches)
